

The Cutting Edge Revolution 21 excel

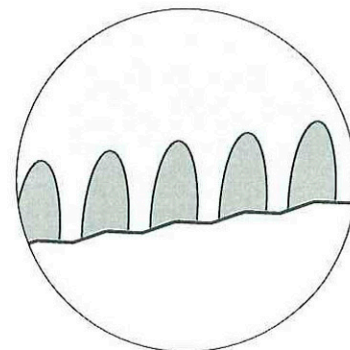

Blade material 1K-6 (Molybdenum,Vandium steel by Daido Steel)
HRC 57

Microdent Process
Serrated Edge

Handle material Black laminated wood

Sharpness "Microdent Process Serrated Edge"

It creates amazingly razor sharp and longer edge retention.
Our testing has proved that it will hold a sharp edge 20 times
longer than normal straight edge.
Easy re-sharpening too !
